techspressionism

/tek-spresh-uh-niz-uh m/

> An artistic approach in which technology is utilized as a means to express emotional experience.

ROOT WORDS (source: Oxford Dictionaries):

expressionism: A style of painting, music, or drama in which the artist or writer seeks to express emotional experience rather than impressions of the external world.

technology: The application of scientific knowledge for practical purposes, especially in industry.

"Each age finds its own technique".

– Jackson Pollock

1 The computer, and technology in general, are not separate from humankind, but a natural extension of us.

2 Technology is a continuum which is as old as humanity, not a novelty or fad.

3 The computer is one of a long string of tools which have enabled human expression, including the typewriter, the camera, the printing press, the pen, the pencil, and paint.

TECHSPRESSIONIST MANIFESTO (V1.0)
PUBLISHED BY COLIN GOLDBERG
ON MEDIUM IN 2014.
